

KIDS DESIGNATED WINNER

BLOCK 1 — GET-UP GAMES (Invertebrates)

Understanding Sentence (kid version):

👉 “First move the hands, then use the floor.”

Story

“You’re a **beetle on its back** 🐞.

Your job is not to push the boot...

your job is to **use the ground** to stand back up.”

Setup

- **Winner Beetle** starts sitting or on their back
 - **Helper Beetle** gently pushes shoulders or tummy (no jumping!)
-

Goal (Winner)

Stand up or build a strong base using **ONE magic move**:

1. **Rocking Chair**
Rock back → feet under → roll forward
2. **Side Drag**
Pick a side → heel sticks to the floor → pull yourself up

3. Butt Hop

Feet behind your bottom → tiny hop → strong base

Rules (Helper)

- ✓ Push and follow only
 - ✗ No jumping, no running around
-

Pause Question (quick & playful)

“What stopped you —

👉 the push... or

👉 forgetting the order?”

🔄 Switch roles after **2 good get-ups**

🎮 *Double XP (kids feel this):*

“Whoa! That one was faster!”

🐮 **BLOCK 2 — THE COW & THE SHARK FIN**

Understanding Sentence (kid version):

👉 “*Heavy head down means there’s a gap.*”

Story

“One kid is a **cow** 🐮 — head down, heavy.

The other kid is a **shark** 🦈 — calm, sneaky.”

Setup

- **Cow** on top, head looking down
 - **Shark** underneath
-

Goal (Shark)

- Slide arm in like a **shark fin / uppercut**
 - Use it to:
 - tip the cow
 - turn them
 - or sneak to the back
-

Rules (Cow)

- ✓ Be heavy
 - ✗ No standing up
 - ✗ No backing away
-

Freeze & Ask (quick!)

“Did your arm **lift the cow**...
or lift the **space** the cow was using?”

 Switch after **60 seconds**

BLOCK 3 — DINOSAUR HUG FINISH

Understanding Sentence (kid version):

👉 “We finish hugs by getting tight, not by squeezing hard.”

Story

“You’re a **sleepy dinosaur** 🦖.

You don’t squeeze your toys...

you just get *heavy and snug*.”

Setup

- **Winner Dino** already has:
 - back hug **or**
 - front head hug
-

Goal (Winner)

Finish the hug using **only dinosaur body parts**:

1. **Shoulder Sink**
Shoulder melts in like mud
2. **Elbow Rotate**
Elbows slide toward pockets
3. **Sharp Forearm**
Arm turns just enough to fit

✗ No squeezing arms like spaghetti

✓ If hands get tight → **freeze**

Tiny Question

“If your hands were asleep...
would your dinosaur hug still work?”

 Same partners, lots of short reps

HOW THIS ALL CONNECTS (for you, not them)

-  **Beetles** learn: clear hands → use the floor
-  **Sharks** learn: frames beat pushing
-  **Dinosaurs** learn: structure beats strength

Kids are:

- practicing winning
- staying safe
- building confidence without fear
